# Easy Tutorial
Tiny Planet

Step 1: Open a picture of a landscape in the photo editor. You can use one of your own pictures or find one by another user by searching for #FreeToEdit and #Landscape in the app. Tap on the Effects icon.
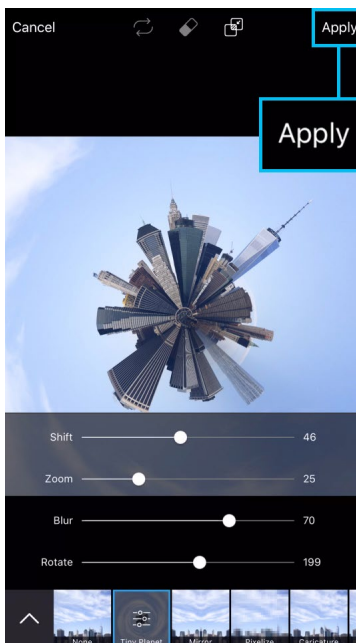

**Step 2:** Open the Distort section and tap on the Tiny Planet icon.

Step 3: Tap on the Tiny Planet icon again to open the settings panel. Use the sliders to adjust the zoom and blur of the Effect.

Step 4: Use the sliders to rotate and shift your planet.

Step 5: When you're done, tap on "Apply."

Step 6: Tap on the arrow icon to finish. Save your picture and share it on PicsArt with the hashtag #TinyPlanet!
